Overview

- What is linguistics?
- What is “Human Language Technology” (HLT)?
- What is the HLT MS program?
- How will it contribute?
What is linguistics?
What is linguistics?

• The science of language, somewhat abstract like physics, chemistry, psychology, etc.
What is linguistics?

- The science of language, somewhat abstract like physics, chemistry, psychology, etc.
- What kinds of languages occur in the world? What are the properties of those languages?
What is linguistics?

- The science of language, somewhat abstract like physics, chemistry, psychology, etc.
- What kinds of languages occur in the world? What are the properties of those languages?
- Language exhibits a rich invisible structural complexity.
What is linguistics?

• The science of language, somewhat abstract like physics, chemistry, psychology, etc.
• What kinds of languages occur in the world? What are the properties of those languages?
• Language exhibits a rich invisible structural complexity.
• Linguists do not necessarily speak a lot of languages.
Human Language Technology
Human Language Technology

- Speech recognition/synthesis, as in automated telephone response (airline reservations)
Human Language Technology

- Speech recognition/synthesis, as in automated telephone response (airline reservations)
- Text mining/search (Google, “Ask Jeeves”)
Human Language Technology

• Speech recognition/synthesis, as in automated telephone response (airline reservations)
• Text mining/search (Google, “Ask Jeeves”)
• Machine translation (Google, Babel Fish)
Human Language Technology

- Speech recognition/synthesis, as in automated telephone response (airline reservations)
- Text mining/search (Google, “Ask Jeeves”)
- Machine translation (Google, Babel Fish)
- Grammar/spell checking (Microsoft Office)
What is the HLT MS program?
What is the HLT MS program?

• Train students to help develop and deploy these technologies.
What is the HLT MS program?

- Train students to help develop and deploy these technologies.
- To bring people with sophisticated understanding of language to these tasks.
What is the HLT MS program?

- Train students to help develop and deploy these technologies.
- To bring people with sophisticated understanding of language to these tasks.
- A two-year program leading to a MS in HLT.
What is the HLT MS program?

- Train students to help develop and deploy these technologies.
- To bring people with sophisticated understanding of language to these tasks.
- A two-year program leading to a MS in HLT.
- Courses in language, HLT, syntax, phonetics, phonology, statistical modeling, business, etc.
What is the HLT MS program?

- Train students to help develop and deploy these technologies.
- To bring people with sophisticated understanding of language to these tasks.
- A two-year program leading to a MS in HLT.
- Courses in language, HLT, syntax, phonetics, phonology, statistical modeling, business, etc.
- An extensive internship with industry partners where real working systems must be developed.
How will the HLT MS program contribute?
How will the HLT MS program contribute?

• Help connect theoretical research with practical concerns and business needs.
How will the HLT MS program contribute?

• Help connect theoretical research with practical concerns and business needs.
• Produce qualified/talented people in HLT.
How will the HLT MS program contribute?

- Help connect theoretical research with practical concerns and business needs.
- Produce qualified/talented people in HLT.
- HLT graduates as employees in local industry or start their own companies/spinoffs.
How will the HLT MS program contribute?

- Help connect theoretical research with practical concerns and business needs.
- Produce qualified/talented people in HLT.
- HLT graduates as employees in local industry or start their own companies/spinoffs.
- HLT interns will be available to work with appropriate local firms.
