

# The College of Social and Behavioral Sciences

	Policy:	
	<h2>Student Course Evaluation</h2>	
	Revision:	Effective:
	10 August 94	10 August 94

## Policy

All courses offered in SBS units must be evaluated each semester using student evaluation questionnaires provided by the University Teaching Center. Units, or individual faculty members; may use either the Short Form or a longer form incorporating custom designed questions that meet specific needs.

## Knowledge

Units are reminded that University policy requires additional types of assessment as well on a periodic basis. Examples would include classroom visits by other faculty, peer evaluation of course materials, and exit surveys of students. The University Teaching Center can provide information regarding additional types of evaluations.
