This document delineates the extent of the commitment of resources within SBS, whether from the department, the college, or some other internal source. - Instructional and service responsibilities will be met by existing departmental resources.
- The total time commitment of each (co-)PI, including teaching, service, and research on and off the grant, is 100% of their FTE.
- If (co-)PIs from different departments/units are originating the proposal and the distributions of F&A cost returns, credit, and direct costs are not specified, the two departments agree that 75% of each goes to the originating or administering department, and 25% of each goes to the cooperating department.
